VOTING PRIVILEGES OF SHAREHOLDERS IN JOINT STOCK LAND BANKS

JULY 11, 1936.

To All Joint Stock Land Banks and Others Concerned:

1. Section 16 of the Federal Farm Loan Act (12 U. S. C. 813) Provides that each shareholder of a joint stock land bank "shall have the same voting privileges as holders of shares in national banking associations." Amendments to the National Banking Act have provided for the cumulative voting of shares for the election of directors and have imposed certain restrictions upon the voting of shares held by the issuing bank as sole trustee (Chap. 89, Sec. 19, 48 Stat. 186; Chap. 614, Sec. 311, 49 Stat. 710).

2. Amendments to the law affecting the voting privileges of shareholders in national banking associations are incorporated into the Federal Farm Loan Act in so far as such amendments are applicable to shareholders in joint stock land banks. Accordingly, each joint stock land bank should amend the appropriate section of its bylaws to read substantially as follows:

In all elections of directors, each shareholder shall have the right to vote the number of shares owned by him for as many persons as there are directors to be elected, or to cumulate such shares and give one candidate as many votes as the number of directors multiplied by the number of his shares shall equal, or to distribute them on the same principle among as many candidates as he shall think fit; and in deciding all other questions at meetings of shareholders, each shareholder shall be entitled to one vote on each share of stock held by him; except that (1) in the election of directors, shares of its own stock held by the bank as sole trustee, whether registered in its own name as such trustee or in the name of its nominee, shall not be voted by the registered owner unless under the terms of the trust the manner in which such shares shall be voted may be determined by a donor or beneficiary of the trust and unless such donor or beneficiary actually directs how such shares shall be voted, and (2) shares of its own stock held by the bank and one or more persons as trustees may be voted by such other person or persons, as trustees, in the same manner as if he or they were the sole trustee. Shareholders may vote by proxies duly authorized in writing; but no officer or employee of the bank shall act as proxy; and no shareholder whose liability is past due and unpaid shall be allowed to vote. Whenever shares of stock cannot be voted by reason of being held by the bank as sole trustee, such shares shall be excluded in determining whether matters voted upon by the shareholders were adopted by the requisite percentage of shares.

3. The suggested amendment should be made in accordance with the bank's bylaws at the next meeting of stockholders or directors, as the case may be. Two certified copies of the resolution amending the bylaws should be transmitted to the Land Bank Commissioner in accordance with the usual procedure.

A. S. Goss,
Land Bank Commissioner.

INTERSTATE COMMERCE COMMISSION.

NOTICE
INFORMATION TO BE SHOWN ON FREIGHT BILLS

JUNE 29, 1936.

To All Common Carriers of Property Subject to the Motor Carrier Act, 1935:

Numerous complaints have been received by the Commission to the effect that freight bills (expense bills) presented by common carriers of property by motor vehicle, do not show sufficient information to enable consignors or consignees to determine therefrom whether the transportation charges demanded by the carrier are applicable.

Section 217 of the Motor Carrier Act, 1935, provides that common carriers by motor vehicle are required to collect no more and no less than the rates and charges stated in the lawful published tariffs in effect. Section 223 of the Motor Carrier Act places a duty on shippers and consignees as well as upon carriers to see that the applicable rates and charges are collected and Section 216 (b) makes it the duty of common carriers of property to establish reasonable practices relating among other things to the issuance of freight bills (expense bills).

A common carrier rendering freight bills (expense bills) for transportation service should state thereon such information as will enable the consignor or consignee, with the aid of the published tariffs, to verify the correctness of the charges demanded by the carrier. Therefore, every freight bill (expense bill) should show:

1. Point of origin.
2. Point of destination.
3. The date of shipment.
4. Proper description of commodities or articles.
5. The weight of commodities or articles.
6. The route of movement indicating each carrier participating in the haul and the transfer points through which the shipment moved.
7. The rate or rates applicable to the service rendered, including advance charges.
8. A statement of the nature and the amount of any charges for special service such as storage, etc., and the points at which such special service was rendered.

ESTABLISHMENT OF RATES IN CONTRAVENTION OF SECTION 4 (1) OF THE INTERSTATE COMMERCE ACT BY AUTHORITY OF FOURTH SECTION ORDER NO. 3700

JULY 8, 1936.

Notice to All Carriers:

By fourth section order No. 3700, General No. 13, entered by the Commission February 3, 1914, carriers subject to the Interstate Commerce Act, Part I, are authorized to establish reduced rates which do not conform to the provisions of section 4 of that act, subject to the conditions provided therein, in those instances in which the existing rates do not conform to the provisions of that section but are "included in and covered by applications" filed with the Commission on or before February 17, 1911, and to continue such rates until the determination of such applications.

It has come to the attention of the Commission that in some instances carriers have published and filed changes in rates not included and covered by applications filed with the Commission on or before February 17, 1911, or have published

new rates, and have shown in schedules containing such rates that they were published by authority of fourth section order No. 3700.

There is no authority contained in this order for such changes in rates or the establishment of new rates where such rates are in contravention of the provision of section 4. Carriers subject to the provisions of section 4 of the Interstate Commerce Act, Part I, are requested to give this matter their attention and to take such steps as are necessary to see that rates in contravention of that section are not published as by authority of the above order, except in those instances as provided therein, where such rates are included in applications filed prior to February 17, 1911, which have not been determined by the Commission.

United States of America—Before the Securities and Exchange Commission

At a regular session of the Securities and Exchange Commission held at its office in the City of Washington, D. C., on the 10th day of July A. D. 1936.

IN THE MATTER OF CLAUDE E. DELAPP, DOING BUSINESS AS NATIONAL INVESTMENT CO., OFFERING SHEETS OF WORKING INTERESTS IN BEAUDOIN BRIDGES FARM

SUSPENSION ORDER, ORDER FOR HEARING (UNDER RULE 340 (A)) AND ORDER DESIGNATING A TRIAL EXAMINER

The Securities and Exchange Commission, upon information received by the Commission, having reasonable grounds to believe that the offering sheet filed by Claude E. DeLapp, doing business as National Investment Co., on the 3rd day of July 1936 covering certain working interests in the property described therein as Beaudoin Bridges Farm, is incomplete or inaccurate in a material respect all as hereinafter more particularly set forth,

The Commission alleges briefly that the said offering sheet is incomplete or inaccurate in the following material respects:

1. In that the information given under Item 9 of Division II is not in substance responsive to the requirements of such item.
2. In respect of the information given under Item 18 of Division II, the date there given being prior to that upon which the offering sheet was signed by Claude E. DeLapp.
3. In that under Item 2 (c) of Division II the area of the tract is stated to be 40 acres, whereas the copy of the conveyance furnished as Exhibit B indicates the area to be approximately 80 acres.
4. In that the information required by Item 11 of Division II is omitted as to the Austin Chalk as found in the Edwards Lime wells located on the so-called "Bridges 15 acres", and in other wells located a like distance from the tract in question.
5. In that the information required by Item 11 of Division II is omitted as to the Austin Chalk as found in the wells on the so-called "Merriweather Farm", which are located the same distance from the tract in question as is "Merriweather No. 1."
6. In that the information required by Item 11 of Division II is omitted as to the Austin Chalk as found in the abandoned well described as a "direct off-set on the west of the Bridges farm."
7. In that the information as to the thickness and content required by Item 11 of Division II is omitted as to the Edwards Lime as found in the wells located on the "Bridges 15 acres" and in other wells located a like distance from the tract in question and in that as to the said wells the total depths and dates of completion are omitted.
8. In that under Item 12 of Division II it is stated that "The Bridges farm is located on the direct line of production of the Salt Flat Field."
9. In that only two copies were filed with the Commission.

It is therefore ordered, pursuant to Rule 340 (a) of the Commission's General Rules and Regulations under the Securities Act of 1933, as amended, that the effectiveness of the filing of said offering sheet be, and the same hereby is, suspended until the 8th day of August 1936; that an opportunity for hearing be given to the said Claude E. DeLapp for the purpose of determining the material completeness or accuracy of the said offering sheet in the respects in which it is herein alleged to be incomplete or inaccurate, and whether the said order of suspension should be revoked or continued;

It is further ordered, that Charles S. Lobingier, an officer of the Commission be, and he hereby is, designated as Trial

Examiner to preside at such hearing, to adjourn the said hearing from time to time, to administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, consider any amendments to such offering sheet as may be filed prior to the conclusion of the hearing, and require the production of any books, papers, correspondence, memoranda, or other records deemed relevant or material to the inquiry, and to perform all other duties in connection therewith authorized by law; and

It is further ordered, that the taking of testimony in this proceeding begin on the 24th day of July 1936, at 2:00 o'clock in the afternoon of that day at the office of The Securities and Exchange Commission, 18th Street and Pennsylvania Avenue, Washington, D. C., and continue thereafter at such times and places as said officer may designate.

Upon the completion of testimony in this matter the officer is directed to close the hearing and make his report to the Commission.

Any disability that may be properly directly service connected under the provisions of Public, No. 2, 73d Congress or Section 28, Public, No. 141, 73d Congress, will be considered directly service connected for the purpose of Public No. 484, 73d Congress and any disability that may be properly presumptively service connected under the provisions of Sections 26, 27, and 28 of Public, No. 141, 73d Congress, will be considered presumptively service connected for the purpose of Public, No. 844, 74th Congress. An existing rating of 30 per centum or more shall not include ratings of temporary total granted solely by reason of hospitalization or treatment.

(B) *Rating of 30 Per Centum or More Previously Established Assumed To Be Correct.*—In the case of any deceased person who served in the World War in which an existing rating of 30 per centum or more has been established by a proper rating agency based on a directly or presumptively service connected disease or injury, as defined in subparagraph (A) above, such rating will be assumed to be correct except for fraud, clear or unmistakable error as to conclusions of fact or law, or misrepresentation of a material fact, regardless of the particular rating schedule under which evaluated, and will be accepted as having established service connection and degree of disability sufficient to constitute title to compensation in the widow, child, or children of the deceased, in accordance with the provisions of Public, No. 484, 73d Congress (Act of June 28, 1934), and Public, No. 844, 74th Congress (Act of June 29, 1936).

(C) *Rating Schedules To Be Used in Evaluation of Disability.*—In any case where a deceased person who served in the World War was receiving or entitled to receive at the date of death, compensation, pension, or retired pay for less than a 30 per centum disability directly or presumptively incurred in or aggravated by service in the World War, as defined in subparagraph (A) above, and proof of a 30 per centum disability or more at date of death has been filed not later than three years subsequent to June 28, 1934, or the date of death, whichever is the later, the degree of disability will be evaluated in accordance with the schedule of disability ratings in effect at the time of death, or the schedule of disability ratings, 1925, and extensions thereto, or the Schedule for Rating Disabilities, 1933, second edition, whichever provides the higher rating for the disease or injury evaluated. In such cases, the burden of proof shall be upon the claimant to show that the 30 per centum disability existed at the date of death.

(D) *Discharge Requirements.*—The requirements as to discharge must conform to Section 23 of the World War Veterans' Act, 1924, as amended (Section 447, Title 36, U. S. Code).

(E) *Federal Income Tax Exemption.*—Exemption from the payment of Federal income tax for the preceding year is a requisite to title to compensation in any person under Public,

No. 484, 73d Congress (Act of June 28, 1934), and Public, No. 844, 74th Congress (Act of June 29, 1936).

(F) *"Person Who Served". Definition of.*—The term "person who served" includes both men and women commissioned, enrolled, enlisted, or drafted, who were finally accepted for active service, including members of training camps authorized by law, and such other persons as have been heretofore recognized by statute as having a pensionable or compensable status.

(G) *Misconduct.*—Death resulting from misconduct of the person who served is not a ground for denial of compensation under the provisions of Public, No. 844, 74th Congress. See R & P R-2576 (B) (July 13, 1936).

2576. Original awards of death compensation under Public, No. 484, 73d Congress (Act of June 28, 1934) and Public, No. 844 (Act of June 29, 1936), shall commence:
